Title: Need to expedite the construction of two Road Over Bridges along the Alappuzha By-pass on National Highway No. 47 in Kerala.

DR. K.S. MANOJ (ALLEPPEY): The construction of Alappuzha By-Pass commenced long way back in 1982. Its two reaches have been completed and construction of the last reach is in progress. There are two Road Over Bridges along this By-Pass. But the construction of ROB's are yet to begin. GAD has been approved by the Railways. But there is dearth of funds for its construction. When Hon'ble Minister for High ways visited Kerala to review the progress of the various projects in Kerala, he had assured the additional funds for the completion of the Road Over Bridges. Public Works Department of Kerala has submitted the revised estimates for the same and the same is pending with NHAI. Hence, I request you to kindly expedite the same and give financial sanction for the construction of ROB's so as to complete the By-Pass at the earliest.
